Free Neighborhood Rocks!

(Take a cell phone photo of this sign so you can refer to it at home.)

Marble

White, interlocked calcite crystals
glitter in bright light.

Slate

Gray, mostly flat pieces,
with a silky sheen in bright light.

Pink Quartzite

Tiny grains of pink sand fused together
for a uniform, almost sugary look.

Scoria (lava rock)

Reddish, with rough surfaces from
tiny bubble holes.

Red Granite

Reddish feldspar crystals interlocked
with gray or purplish quartz crystals.

Salt-and-Pepper Granite

Interlocked crystals of whitish feldspar
and quartz with tiny dark minerals.
